

## RENTAL PACKAGE

LGR 7000XLi

Portable Dehumidifier

### APPLICATIONS:

- Mold/Fungus Prevention
- Restoration Drying
- Corrosion Prevention
- Electronics Prevention

### OPERATING DATA:

### PRODUCT FEATURES:

- Advanced Crossflow Technology maximizes efficiency and ensures superior performance in low-grain conditions
- Built-in sensors monitor performance parameters; system automatically adjusts operation to optimize performance in all conditions
- Built-in humidistat and plain-English system status and maintenance-related messages
- Sealed large-capacity pump basin – large enough to contain water from an unintentional defrost after a power outage or other unexpected shut-down
- Ergonomic design. Handle 2 in. taller for easier use on stairs, folds down for storage. Integrated cord and hose storage.
- Legendary rotomolded housing – practically indestructible –stackable for storage to save space
- Automatic restart after outage when power is restored.
